Recruit-AI: Streamlined UX for Startup Recruiters

Recruit-AI provides a minimal, recruiter-focused interface for startup hiring, enabling fast, accurate candidate screening. It presents job descriptions alongside resumes for side-by-side comparison, reducing cognitive load and prioritizing speed and clarity. Recruiters can evaluate candidates in seconds, ideal for high-volume scenarios.

Visual Design Principles

- **Match score emphasis**
  Prominent display of compatibility scores for quick assessment.
- **Structured result cards**
  Consistent, organized candidate information for easy parsing.
- **Reduced cognitive load**
  Minimalist interface to focus attention on essential data.
- **Quick scanning**
  Optimized layout for rapid review of multiple candidates.
